REVIEW My opinion on the publication service. I have acquainted with the scientific publications of the Journal of Acta Scientific Microbiology and came to the conclusion: the articles are diverse, cover the latest achievements in the fields of Microbiology (especially medical), virology of immunology, bacteriology, ecology and their interaction with man and the environment. I liked their depth of research. I am pleased to publish my work in this journal, although I publish it in other journals. In this journal, scientists receive Certificates for their work. Sincerely yours Doctor of Medical Sciences, Professor, Corresponding Member of the Russian Academy of Natural Sciences Valentina Divocha

Dear Dr. Patil,

Thank you for reviewing the above referenced manuscript. I greatly appreciate your contribution and time, which not only assisted me in reaching my decision, but also enables the author(s) to disseminate their work at the highest possible quality. Without the dedication of reviewers like you, it would be impossible to manage an efficient peer review process and maintain the high standards necessary for a successful journal.

You will shortly receive a notification from Elsevier's reviewer recognition platform, which provides you with a link to your "My Elsevier Reviews" private profile page, certificates, editor recognition as well as discounts for Elsevier services.

I hope that you will consider Journal of Molecular Liquids as a potential journal for your own submissions in the future.

As a token of appreciation, we would like to provide you with a review recognition certificate on Elsevier Reviewer Hub (reviewerhub.elsevier.com). Through the Elsevier Reviewer Hub, you can also keep track of all your reviewing activities for this and other Elsevier journals on Editorial Manager.

Karnataka, India**

Dear Friends and Colleagues,

It is our pleasure to invite you on behalf of organizing team to the Annual CME on **ARTIFICIAL INTELLIGENCE IN PHARMACOLOGY AND PHARMACOTHERAPY** at the Department of Pharmacology, J.N.Medical College, Belagavi on 29th March, 2024. The event is another endeavour in continuation to the yearly series of academic programs organized by Department of Pharmacology and Local IPS branch, Belagavi.

Artificial Intelligence (AI) is revolutionizing healthcare in unthinkable ways. It is leveraging advanced algorithms and data analysis to enhance diagnostics, treatment plans, and patient care. In healthcare, AI algorithms can interpret complex medical imaging, such as MRI and CT scans, with remarkable accuracy, aiding in early detection and diagnosis of diseases like cancer.

Additionally, AI-powered systems can analyse vast amounts of patient data from across the spectrum like smart phones, watches and others gadgets to identify patterns and predict potential health risks, allowing for personalized treatment plans and proactive interventions. So that leads to early and accurate detection of diseases like hypertension and better monitoring of compliance, leading to improvement in cardiovascular outcomes.

Overall, AI holds immense potential to transform healthcare as we know it and is positioned to empower the medical fraternity and patients as a whole. Come take a plunge with us into this CME and discover the multifaceted use of AI in healthcare. This CME will help to equip ourselves with knowledge in order to maximally serve the lives of people around us.

Respected Madam,

On behalf of Bharati Vidyapeeth (Deemed to be University) School of Physiotherapy, Sangli we are delighted to extend an invitation to you to be a part of our Institutional Ethics Committee. We have carefully considered your exceptional qualifications, expertise, and notable achievements and we believe that your valuable insights and strategic acumen would greatly benefit our institution.

As a member of our Institutional Ethics Committee, you will play a pivotal role in granting ethical clearance to the research proposals of the institution. Your diverse perspective and wealth of experience will contribute to our collective decision-making processes and drive innovation.

We would be honored to have you join our Institutional Ethics Committee. Please let us know if you are interested in this opportunity. Thank you for your consideration to serve as a member for our committee and we look forward to hearing from you soon.

Sincerely,

Feasibility of Training Community Health Workers (CHWs) in Administering the ASQ-3 for Identification of Infants at Risk for Developmental Delay

David Jackson, MD, PhD, Board Certified Pediatric Clinical Specialist, Dharma Medical, MD, PhD, David N. Hunter, MD, PhD, Malachi Gargan, MD, PhD, Vinodh Deshpande, MD, PhD, Shubra Choudhry, MD, PhD, Daniel Groves, MD, PhD

The University of Pittsburgh, Pittsburgh, PA; KLE Institute of Physiotherapy, KLE Academy of Higher Education & Research, Bellary, India; Thomas Jefferson University, Philadelphia, PA

Introduction/Purpose

Community Health Workers (CHWs) could play an important role in identifying infants at risk for developmental delay (DD) in low- and middle-income countries (LMICs).

CHWs are also known as Accredited Social Health Activists (ASHAs) in India.

The primary aim was to determine if CHWs can effectively administer the 12-month and 24-month Ages & Stages Questionnaires (ASQ-3) to identify infants with DD.

The secondary aim was to identify factors that contribute to DD.

Methods

Infants were trained in administering the 12-month and 24-month ASQ-3.

Inter-rater reliability for administering the 12-month ASQ-3 and the 24-month ASQ-3 was assessed by 10 CHWs and 10 ASHAs who administered the ASQ-3 to 100 infants and 100 ASHAs who administered the ASQ-3 to 100 infants.

Inter-rater reliability of the ASQ-3 with the Bayley Scales of Infant and Toddler Development, Fourth Edition (Bayley-4) was assessed by 10 CHWs and 10 ASHAs who administered the ASQ-3 and the Bayley-4 to 100 infants.

Results

CHWs and ASHAs were able to administer the ASQ-3 to 100 infants and 100 ASHAs who administered the ASQ-3 to 100 infants.

Inter-rater reliability for administering the 12-month ASQ-3 and the 24-month ASQ-3 was assessed by 10 CHWs and 10 ASHAs who administered the ASQ-3 to 100 infants and 100 ASHAs who administered the ASQ-3 to 100 infants.

Inter-rater reliability of the ASQ-3 with the Bayley Scales of Infant and Toddler Development, Fourth Edition (Bayley-4) was assessed by 10 CHWs and 10 ASHAs who administered the ASQ-3 and the Bayley-4 to 100 infants.

Conclusions

CHWs and ASHAs were able to administer the ASQ-3 to 100 infants and 100 ASHAs who administered the ASQ-3 to 100 infants.

Inter-rater reliability for administering the 12-month ASQ-3 and the 24-month ASQ-3 was assessed by 10 CHWs and 10 ASHAs who administered the ASQ-3 to 100 infants and 100 ASHAs who administered the ASQ-3 to 100 infants.

Inter-rater reliability of the ASQ-3 with the Bayley Scales of Infant and Toddler Development, Fourth Edition (Bayley-4) was assessed by 10 CHWs and 10 ASHAs who administered the ASQ-3 and the Bayley-4 to 100 infants.

Thomas Jefferson University

It is feasible to train Community Health Workers (CHWs) to administer the Ages & Stages Questionnaires®, Third Edition (ASQ®-3) to screen for typical development or developmental delay (DD) in low resource settings, specifically in low- and middle-income countries (LMICs), resulting in timely access to early intervention.

- Predictive validity of the ASQ®-3 with the Bayley Scales of Infant and Toddler Development, Fourth Edition (Bayley®-4) was limited and requires further investigation.
- Nutrition, socioeconomic status, parental literacy, and birth weight positively influence the developmental trajectory of infants.
- The results of this study may also contribute to policy decision-making for using CHWs (ASHAs) for developmental monitoring of infants in low resource settings, specifically in LMICs.
