## REPORT OF CLINICAL KEY ORIENTATION PROGRAM

An orientation program for Clinical Key was successfully conducted on Monday, June 10<sup>th</sup>, 2024, at 11:00 AM, in the Seminar Hall, 4<sup>th</sup> floor of KLE College of Pharmacy, Belagavi. The program aimed to introduce and educate all 5<sup>th</sup> & 6<sup>th</sup> year Pharm. D students, PG scholars, research scholars and faculty members from the Department of Pharmacy Practice on the functionalities and benefits of Clinical Key.

### Objectives:

1. Increase Awareness and Adoption of Clinical Key
2. Develop Skills for Efficient Resource Utilization
3. Enhance Evidence-Based Decision Making and Patient Care

**Dr. Preeti Salve** led an informative session on Clinical Key, a valuable online resource for healthcare professionals. In a live demonstration, students were shown how to use the database. They were then encouraged to practice on their laptops and phones for hands-on training. She also explained how Clinical Key empowers users with standardized medical knowledge and promotes consistent, evidence-based practices. The program offered an in-depth overview of Clinical Key, a valuable online resource that empowers healthcare professionals with standardized medical knowledge. It promotes consistent, evidence-based practices by providing a vast collection of learning materials, including:

- Full-text reference books and journals
- Synoptic content summaries
- Drug information
- Educational videos
- Practice guidelines
- Customizable patient education handouts
- Clinical calculators

### Conclusion:

## **“Persuit of Artificial Intelligence in Pharmacy Education”**

The Workshop on “Persuit of Artificial Intelligence in Pharmacy Education” was conducted by the Department of Pharmaceutical Chemistry, KLE College of Pharmacy, Belagavi Under the auspices of Department of Pharmacy Education (DOPE) on 14th May 2024. The programme was inaugurated by gracious hands of Dr. D.H.Rao, Director, Cambridge Institute of Technology, Bengaluru. Dr. Sunil S. Jalalpure, Principal, Dr.M.B.Patil, Vice Principal, Dr.Meenaxi Maste and all faculty members of KLE College of Pharmacy, Belagavi were present on this occasion.

Dr.Meenaxi Maste, Head of Department, Department of Pharmaceutical Chemistry, KLE College of Pharmacy, Belagavi welcomed the gathering. Mr. Kiran Gaikwad, Assistant Professor introduced the chief guest. Dr. Kalpana Patil, DOPE Convener, KLE College of Pharmacy, Belagavi addressed on the objectives and its functions.

Chief Guest Dr. D. H. Rao emphasized on importance of Artificial intelligence in pharmacy education and need for the connection of Artificial intelligence with pharmacy in different research areas for the benefits of community. He also emphasized on role of Artificial intelligence in enhancing faculty capacity in teaching learning.

Dr. Sunil S. Jalalpure, Principal, KLE College of Pharmacy, Belagavi addressed the delegates on importance and strategies of artificial intelligence in teaching learning in pharmacy education. He also briefed on need of Artificial intelligence in healthcare research to cater the need of community by providing good healthcare services.

Resource person Dr. D. H. Rao spoke on “Enhancing faculty capabilities with Artificial intelligence”. Dr.Rakhee Kallimani, KLE Dr.M.S. Sheshgiri college of Engineering, Belagavi spoke on “Integrating Artificial intelligence in Education and Artificial intelligence tools for educators”. Total 40 faculty members of various pharmacy institutions were actively participated in the event. Mr. Nikhil Gawas, Assistant Professor, KLE College of Pharmacy, Belagavi, proposed the vote of thanks.

## DOPE workshop on “**Persuit of Artificial Intelligence in Pharmacy Education**”

### Objective of the Workshop:

- Enhance Understanding of AI Applications in Pharmacy
- Equip Participants with Practical AI Skills.

**Dr. D. H. RAO delivered session on Enhancing Faculty Capability with AI.**

Dr. D. H. Rao spoke about the transformative potential of artificial intelligence in academia. Rao emphasized the importance of integrating AI tools and techniques into teaching methodologies to enhance faculty capabilities and improve educational outcomes. He discussed how AI can streamline administrative tasks, personalize learning experiences for students, and facilitate data-driven decision-making in educational institutions. Additionally, Rao highlighted the significance of up-skilling faculty members to effectively leverage AI technologies in their teaching practices, ultimately fostering a more dynamic and engaging learning environment.

## **Dr. Rakhee Kallimani delivered session on AI Tools for Educators: A Practical Guide**

Dr. Rakhee Kallimani discussed how artificial intelligence (AI) tools can benefit educators in their research endeavors. She highlighted examples such as using machine learning algorithms to analyze large sets of data, helping researchers uncover patterns or trends. Kallimani emphasized the importance of incorporating AI technologies in educational research to enhance the quality and efficiency of scholarly investigations.

### **“3-D Printing in Pharmaceutical Research and Development”**

**Organized by**

**Department of Pharmaceutics, KLE College of Pharmacy, Belagavi**

**21<sup>st</sup> and 22<sup>nd</sup> February 2024**

The workshop on “3-D Printing in Pharmaceutical Research and Development” was organized by the Department of Pharmaceutics, KLE College of Pharmacy Belagavi, A Constituent unit of KLE Academy of Higher Education and Research on 21<sup>st</sup> and 22<sup>nd</sup> February 2024 at KLE Centenary convention Centre Belagavi. The programme was inaugurated by gracious hands of chief guest Mr. Dayanand Kadadevar, Drugs Inspector, Belagavi circle, Govt. of Karnataka and Guest of honor Dr. M. S. Ganachari, Registrar, KAHER, Belagavi. Dr. Sunil S. Jalalpure, Principal, Dr. M. B. Patil, Vice Principal, Dr. P.M. Dandagi, Head, Department of Pharmaceutics, experts from ALTEM technologies, Bangalore and all faculty members of KLE College of Pharmacy, Belagavi were present on this occasion.

Dr. P. M. Dandagi, Head, Department of Pharmaceutics welcomed the gathering.

Mr. Ravikiran Kanabargi, Assistant Professor, KLE College of Pharmacy, Belagavi introduced the chief guest and briefed on overview of workshop.

Chief guest Mr. Dayanand Kadadevar addressed the significant role of Artificial intelligence-based techniques, 3D assisted robotics and 3D bioprinting applications to meet the health needs in future.

Guest of honor Dr. M. S. Ganachari, emphasized on application of Artificial intelligence and 3D printing in digital therapeutics. He mentioned the steps taken by KAHER to promote innovation and collaborative research to cater the need of healthcare professions.

Dr. Sunil S Jalalpure, Principal, KLE College of Pharmacy, Belagavi emphasized on the importance of 3D printing in customized and tailored therapy and technological skill development training to meet the upcoming professional challenges in research.

On first day of workshop, resource person Ms. Maria Scimaran, Application specialist, ALTEM technologies introduced 3D bioprinter with work flow, processing stages and its applications along with demonstrations. The second day of workshop included sessions with demonstrations on modelling, virtual screening-ADMET and TOPKAT, structure-based drug designing with binding sites prediction by Dr. Sakshi Bharadwaj application scientist, ALTEM technologies.

About 105 delegates which included faculty and research scholars of various institutes of KAHER and Pharmacy colleges across Karnataka in which from Belagavi (55), Hubli (28), Nippani (15), Ballari (3), Maharashtra (3), Gadag (1) have actively participated in the event. Dr. Archana S. Patil, Associate Professor, KLE College of Pharmacy, Belagavi, proposed the vote of thanks.

#### **RESOURCE PERSON**

1. **Ms. Maria Scimran**, Application specialist, ALTEM technologies, Bengaluru: Introduced 3D bioprinter with work flow, Preprocessing Stages and Extrusion vs DLP Based Bioprinting, Postprocessing Stages and Machine Feature, Applications 3D Bioprinting and Demo on 3D Bioprinter.
2. **Dr. Sakshi Bharadwaj**, Application Scientist, BIOVIA Discovery Studio, ALTEM technologies, Bengaluru: Introduced Homology modelling, Virtual screening-ADMET and TOPKAT and its significance, introduction to structure based Drug Designing and Algorithms, Demo on homology modelling, Demo on structure -based drug designing with binding site prediction.

The program was conducted as per the schedule, and the feedback from participants was received in the form of online Google form.

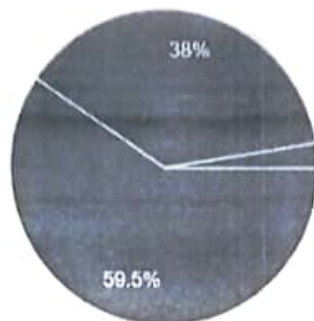

The Workshop concluded with Valedictory function. Dr. Sakshi Bhardwaj and Prof. Rajashree S Masareddy distributed the certificate of participation to the delegates and resource persons.

### Report

Guest Lectures on

**“Pharmacodia Global Database: AI Competitive Intelligence  
platform for R&D and Innovation”  
&  
“Cyber-AIDD: AI tool for Innovative drug target selection and molecular  
design”**

*(Date, time and Venue: 13th July 2024 @ 10.00 am,  
Seminar Hall, Fifth Floor, KLECOP, Belagavi)*

The guest lectures on topics **Pharmacodia Global Database: AI Competitive Intelligence platform for R&D and Innovation** and **Cyber-AIDD: AI tool for Innovative drug target selection and molecular design** were organized by Department of Pharmaceutical Chemistry, KLE College of Pharmacy, Belagavi on **13/07/2024** at 10.00 AM. **Dr. Meenaxi M. Maste, Dr. Shailendra S. Suryawanshi** and **Mr. Ravikiran Kanabargi** were the coordinators for the conduct of guest lectures. **Dr. Sunil S. Jalalpure**, Principal and **Dr. M. B. Patil**, Vice Principal were the Convener for guest lectures. **Mr. Sachin Marihal** and **Mr. Anilkumar** from **SaSPinjara Life Sciences Pvt. Ltd** were the guest speakers. **Dr. Subhash Marihal** also attended the lectures.

Faculty members, Ph. D research scholars, and post-graduate students have attended. More than **70 participants** were the beneficiaries in the guest lectures. The guest lectures were conducted in **Seminar Hall, KLE College of Pharmacy, Belagavi** and they were started at 10.00 AM with introduction to guest lectures and welcome address by **Dr. Shailendra S. Suryawanshi, Dr. M. B. Patil** have handed over the token of appreciation to Dr. Subhash Marihal, **Dr. Kalpana S. Patil** have handed over the token of appreciation to Mr. Sachin Marihal, **Dr. Meenaxi M. Maste** have handed over the token of appreciation to Mr. Anilkumar. **Dr. M. B. Patil** have given the introduction to Dr. Subhash Marihal. **Dr. Shailendra S. Suryawanshi** have introduced Mr. Sachin Marihal and **Mr. Nikhil Gawas** have introduced to Mr. Anilkumar.

The first guest lectures on topic: Pharmacodia Global Database: AI Competitive Intelligence platform for R&D and Innovation was delivered by Mr. Sachin Marihal, (VP-BD), SaSPinjara Life Sciences Pvt. Ltd. The second guest lecture on topic was delivered by Cyber-AIDD: AI tool for Innovative drug target selection and molecular design delivered by Anilkumar, (CSO), SaSPinjara Life Sciences, Pvt. Ltd. Both lectures were interactive, followed by question-answer session and discussion. Feedback on guest lectures were collected by Mr. Ravikiran Kanabargi. At the end of two guest lectures vote of thanks was given by Dr. Shankar G. Alegaon and program was ended with group photo.

## Highlights of Topics Covered

### TOPIC 1: Pharmacodia Global Database: AI Competitive Intelligence platform for R&D and Innovation.

#### Seminar scope/insights:

- Global Pharmaceutical Intelligence Platform for Research Professionals
- With Pharmacodia Global Database get reliable and real time updated data on drug.
- Drug includes Small molecules, Biologics, Cell therapy, Vaccine, Generic.
- Comprehensive drug information will make Researchers to strategize and execute projects more efficiently.
- Achieve "Decision making based on data" more quickly and accurately with help of AI assistance, which helps to stay ahead of the ever-changing market.
- Pharmaceutical database covers **62,865+ Drug data, 478,538+ Clinical Trials, 14,293,360+ Patents, 75,887+ Regulatory Policies** and **899,135+ Registration & Approval of global molecules** and **Pharmacopoeias** (USP, BP, EP, ChP, JP), Formulation prescription, Excipient information, Registration details of many countries including DMF details.
- **Sources of literature:**  
Different kind of generating literature like conventional by books, articles. But in present scenario data intelligence platform make significant application for research publication.
- **Source of information for article:**
  - By referring literature from published articles, reference books etc makes researcher time consuming, partial access to the target study.

- Using database from worldwide information can able to prepare review article from different perspective from like
- Clinical trial – access to global clinical trials study, review article for more advancement for particular diseases – like CAR-T therapy.
- Synthetic chemistry – Synthetic route of approved, investigational molecules. Intermediates, impurities details. All these information makes chemist making new/alternative route of synthesis application with commercial applicability where database provides insights on scalability information.
- Pharmaceuticals by referring to recent drug approvals, their technology involved, most recent drug approvals, NDA/BLA, 505(b)2 approvals - rationale for approvals.
- Intellectual Property Rights (IPR) - global patent, millions of patents can be screened for specific search with application of AI, make more concise Patent assessment report for particular kind of study, same data can be downloaded in easy editable format.
- Regulatory information: global regulatory policies in single window, makes research scholar to understand global perspective for regulation implication for the study to be conducted.
- Different Pharmacopeias monograph can be accessed with easily comparable option.

## Topic 2: Cyber-AIDD: AI tool for Innovative drug target selection and molecular design

The AI tool that helps to boost the efficiency in screening the innovative drug targets and designing molecular structures for early phase drug discovery.

### Insights

- Global biomedical artificial intelligence market development trend
- AI Technology application-examples
- Case of Molecular design of new drug in CyberCPT
- Cyber SAR case studies

### Introduction to Cyber-AIDD Platform

#### 1)Cyber SAR: Knowledge Tool Database

1.1) Target Overview: Facilitates the proactive exploration of potential drug targets for effectiveness and potential development possibilities of targets

1.2) Helps Identifying the hit compounds and providing the insights to design first in class drugs

1.3) Third function of CyberSAR is in facilitating the rapid assay design thus providing potential implementation option

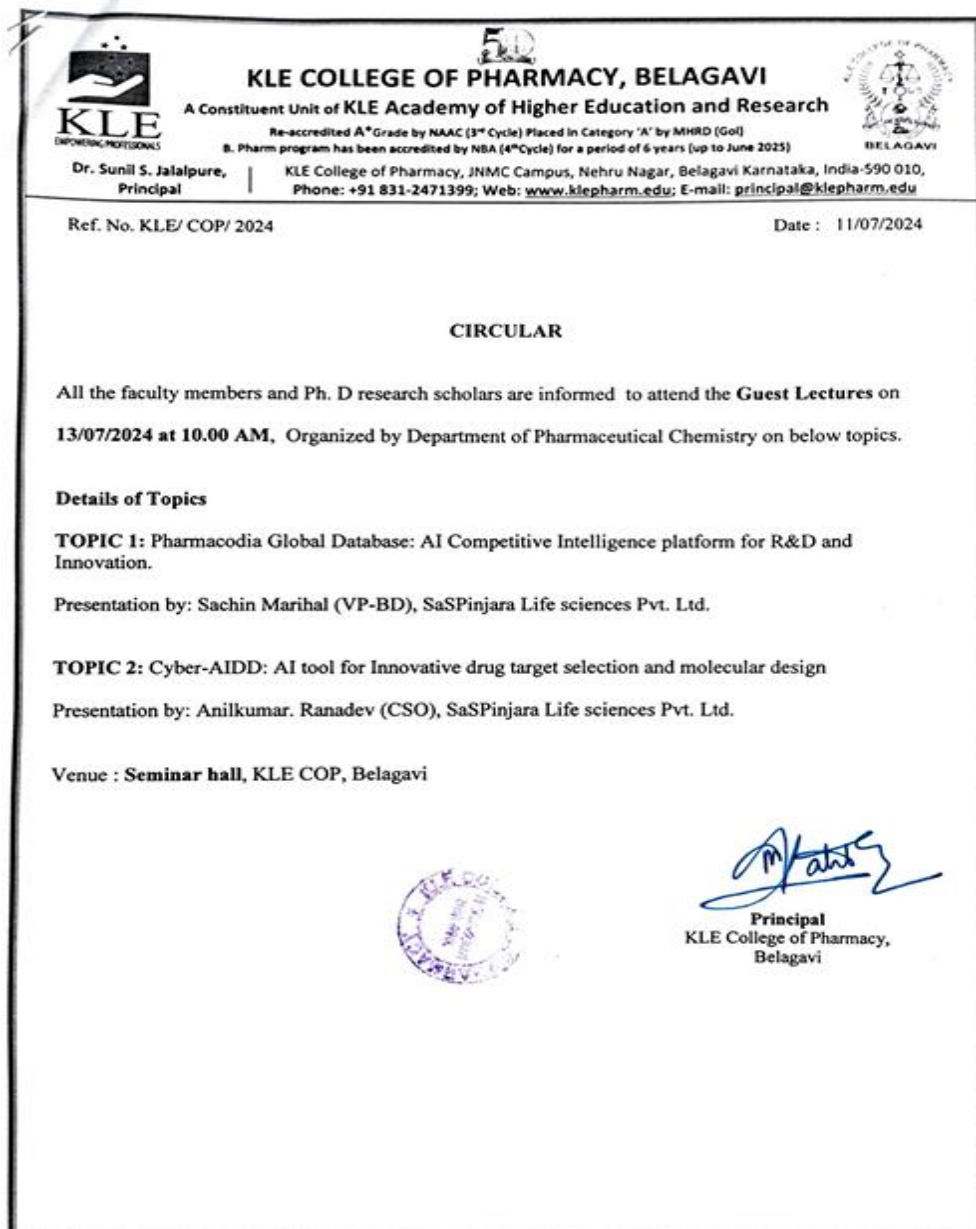

1.4) Fourth function is to efficiently acquire relevant information for Online SAR studies which provides preliminary solutions for molecular design

#### 2)Introduction to CyberX discovery model

2.1CyberX-Hit 2.2) CyberX-Lead 2.3) CyberX candidate

#### 3)customized services

# WORKSHOP ON RESEARCH DESIGNS AND MANUSCRIPT WRITING

## Objectives:

- This workshop is designed to equip participants with key concepts on basics of research methodology focusing on theoretical and practical inputs.
- Specifically, the formulation of research problem, formulation of research hypothesis and testing hypothesis, conducting literature review, data collection methods, selection of appropriate parametric or non-parametric statistical method for analyzing data and report writing.

The main objective of this training programme is to impart quality education and practical oriented learning of medical procedures to candidates.

## Date & Venue:

The workshop program took place on **12th and 13th August 2024** at Seminar Hall, 5<sup>th</sup> floor, KLE College of Pharmacy, Belgaum, Karnataka.

## Training Team:

The members of the training team were:

1. Prof. (Dr.) M S Ganachari, Professor and Head of Pharmacy Practice department, KLE CoP, Belagavi
2. Dr. Geetanjali Salimath, Dept of Pharmacy Practice, KLE CoP, Belagavi
3. Dr. Roopali Sankeshwari, Dept of Public Health, KLEVVK institute of Dental Sciences, KAHER, Belagavi.
4. Dr. Sulakshana, Dept of Community Medicine, JNMC, KAHER, Belagavi

## REPORT ON GUEST LECTURE

### RECENT ADVANCES OF IN SILICO DRUG DISCOVERY

A guest lecture was conducted by Department of Pharmaceutical Chemistry on 28<sup>th</sup> October 2024, with guest speaker Dr. Raguvir Pissurlenkar, Professor from Goa College of Pharmacy, Goa. His insightful talk on "Recent Advances of In Silico Drug Discovery" provided valuable insights into the cutting-edge methodologies and techniques being employed in modern drug development.

Dr. Pissurlenkar began his lecture by emphasizing the significance of computational methods in accelerating drug discovery processes. He explained how in silico techniques, such as molecular modeling, virtual screening, and quantum mechanics, have revolutionized the way scientists identify and optimize potential drug candidates. The lecture covered a wide range of topics, including:

- **Molecular dynamics simulations:** Their role in understanding protein-ligand interactions and conformational changes.
- **Machine learning applications:** Their potential in predicting drug properties and toxicity.
- **High-throughput screening:** How computational methods can be used to screen vast libraries of compounds efficiently.
- **Case studies:** Examples of successful drug discovery campaigns that have leveraged in silico approaches.

Dr. Pissurlenkar's presentation was both informative and engaging, captivating the audience with his expertise and passion for the field. The interactive Q&A session that followed allowed participants to clarify their doubts and delve deeper into specific aspects of in silico drug discovery. Overall, the guest lecture was a resounding success. It provided our students and faculty with a valuable opportunity to learn about the latest advancements in drug discovery and explore potential research collaborations.

About 100 UG, PG, PhD Research Scholars & faculty benefitted from the program. The program was successfully organized under the guidance and supervision of Dr. Sunil S.

Guest lecture on "**Relative Response Factor: An Important Analytical Concept in Herbal Industry**" was conducted by Department of Pharmacognosy, KLE College of Pharmacy, KAHER, Belagavi on 14th September 2024.

**Dr. Prakash Neswi**, Principal Scientist, Research and Development, Himalaya Wellness Company, Bengaluru served as resource person. He spoken on importance and scope of relative response factor in herbal research especially in impurities analysis. He also briefed on career opportunities in pharmaceutical industries for pharmacy professionals.

**Dr. M. B. Patil**, Vice Principal and Head, welcomed the dignitaries.

**Dr. Sunil S Jalalpure**, Principal, KLE College of Pharmacy, Belagavi introduced resource person.

Around 70 research scholars, PG students and faculties were actively participated in the program.

Mrs. Sneha B Patil proposed vote of thanks.

Mr. Akshay K Patil coordinated for the smooth conduct of program.

### **“Laboratory Safety and Procedure.”**

The Department of Pharmacology, KLE College of Pharmacy, Belagavi, organized a training programme for Non-teaching staff on 14.03.2024, with the title of “Laboratory Safety and Procedure.”

Dr. Mallappa Shalavadi, as the Associate Professor and Head of the Department of Pharmacology at HSK College of Pharmacy, Bagalkot, conducted a training programme focusing on "Laboratory Safety and Procedure." Throughout the session, He accentuated the paramount importance of safety measures in laboratory settings. He provided comprehensive guidance on handling various hazardous substances, emphasizing the critical need for meticulous attention to safety protocols.

In addition to laboratory safety, he also delved into the nuances of ensuring safety in animal houses, highlighting the ethical responsibilities associated with research animals. By imparting insights into the significance of animal house safety, he underscored the need for meticulous care and attention to the well-being of the animals involved in research experiments.

Total 14 nonteaching staff were present in training programme. Mr. Abhinandan Munnolli welcomed resource person and Dr Priyanka Patil proposed vote of thanks.

### Workshop Details:

AI tools have the potential to greatly enhance the learning experience along with this AI algorithm can be put to good use for quickly and easily generate flawless grammatically correct, well written and accurate research manuscripts. Use of this AI knowledge can help researchers to review relevant papers, collect, comprehend and analyze data decrease plagiarism and bring about seamless team collaborations.

### Objectives:

#### To appraise the participants with:

- Introduction to potential of AI in scientific writing and communication.
- With essential skills in manuscript writing, editing and publishing.
- Foster an understanding of ethics while using AI tools and use the same responsibly.

### Expected outcomes

- To use the knowledge gained on various AI tools available for manuscript writing.
- To aid researchers in generating high quality accurate manuscripts in less span of time.
- To facilitate researchers with knowledge of using AI tools for spawning errorless, grammatically correct research papers:

## **Report on two days state level conference on Biodiversity, Conservation and Cultivation of Medicinal Plants and Their Application in Healthcare.**

The programme of two days dated 8/6/2024 and 9/6/2024 started with prayer service at 10:00 AM. Prof. Ravindra Karadi welcomed all the dignitaries on the Dias. Swamiji Shivkumar is the whole and soul of biodiversity of medicinal plants, natural resource, motherland, water resource for their conservation and protection in kappatgudda.

Dr C.S. Arasanara has explained thoroughly about the natural resource which was present in the past and in current days. Dr R.F Inchala explained in detail about the conservation of the medicinal plants, its utilization and how to use it economically. The dignitaries inaugurated the program by watering the plants.

The commissioner, Dr. Srinivasalu, from the Department of AYUSH, Government of Karnataka in his speech, spoke about the comeback of the traditional medicines like use of Ginger, Pepper, Lemongrass, etc. Even during the covid period, people used these medicines. In order to eradicate the common sickness like diabetes, jaundice, asthma, joint pain, piles AYUSH has played an important role many years ago and explained about how to grow these medicine plants. To grow the plants, we need the support from farmers and companies to manufacture.

Dr. Venkatesh, who is the head of forest activists of Karnataka at Bengaluru, says that there is a lot of difference between the farmers and merchants and that they are not getting the yield in time. The quality of these medicinal plants is decreasing day by day and we should make use of organic manure. He also mentioned that he wishes the grow of the native plants and sell it to the pharmaceutical companies for healthy living. Prof Jagannath Rao of disciplinary department introduced about the "Charaka Sushruta" to the world. In this time in Karnataka, Kuppatagudda place is very famous for Ayurvedic plants. In this place, we get *Gardenia gummifera*, *Hiptage benghalensis*, *Aegle marmelos*, *Adhatoda zeylanica*, *Santalum album*, *Phyllanthus emblica*, vetiver plant, velvet bean, *Tinospora cordifolia*, Indian Asparagus and many other medicinal plants. In this order, we should try our best to grow these medicinal plants, which will be useful for our coming generations. We should not take it lightly, but seriously. We should try our best to conserve these medicinal plants. In the past 2 decades, people had not given importance, but presently we should give importance for our health. So Kuppatagudda should be a well-known place for the medicinal plants.

Dr Srinivas Bannigol of Ayurveda University, Hubballi says, "our India- land of wealth" day by day, is losing the usage of medicinal plants. But we should make the best use of it. Dr Ashok Shettar, head of KLE Society's university Hubballi in his chief guest speech, said about the importance of medicinal plants. He gave detail information to scientists, students, doctors, professors and also agriculturist. He also spoke about Swamiji that he is a trustworthy person who is giving his utmost support to the society for growing medicinal plants at kappatgudda. A plant is related to a mother as mother looks after children with love and care in the same way, we should treat the plants. Kuppatagudda is a well-known place in the world for affordable plants like Kavali, Anjuri etc which are available in the forest. Now these plants have come to an extinct.

Dr. Chirantayya Hiremath of Ayurveda University gave vote of thanks to the program. After that, there was tea break, photo session and the exhibition of the banners done by the dignitaries followed by the education session.

After the lunch break, the afternoon session was started. The CEO of Sanjeevini Ayurveda university gave valuable insights on traditional medicinal plants.

Dr. Srinivas explained that the plants were since the Vedic period. In order to eradicate cancer, they have removed some specific parts of plants by using modern science knowledge. In the afternoon, the program was organized at 2 different locations at the same time. The agriculturists and industrialists had a discussion about the problems faced by the consumer on the guidance of Dr. Venkatesh, Dr. Srinivas and Ajay Prabhu.

A total 57 companies attended this session and gave their advice to the farmers. Shri Prathap of Dharmasthala University, Udupi should get good price for their yield. And they should make use of better equipment's. Shri. Shashikanth from National remedies for herbal medicine Department tells to purchase tulsi, shatavari, ashwagandha etc. Shri. Manjunath of Amrit Noni Department said that they are ready to buy these plants. Prakriti products, Ankola, Bengaluru and Tumkur, also agreed to purchase the Garcinia, Nirbhrama and brahmi plants. Mrs. Sujatha has also talked about the purchasing of medicinal plants to the farmers. Dr. Gopal Krishna Bijay of Nanjangudda told that he will purchase pepper, Gooseberry, clove, cinnamon, cardamom. Shri. Praneeth is ready to purchase pumpkin and Shatavari. Himalaya company, Mumbai, being the legal advisor, was ready to purchase wild gooseberry, Amrutha balli, rose petals. C.R. Acharya of Moodabidre has told the usage of bio fertilizers to plants such as Brahmi, Lavancha, Dalchini.

Dr R.D Raikar from Bengaluru spoke that every APMC has to open marketing place for such Ayurvedic plants. He has agreed to purchase Gooseberry, Papaya leaves, Nela nelli.

Shri. Balavanth Patil, who is a famous agriculturist from Gadag, has done the production of sandalwood, teakwood, rosewood, custard apple, chickoo in one acre land which is the happiest information to the industries. Dr. Samyashree Sharma from Gokarna has talked about the healing and protection of our health. And that how we can be away from diseases by using these medicinal plants. Medicinal plants are also used for the development of the sense organs. Dr Jagannath Rao spoke about landscaping and ecoscaping. That plants grow according to the weather and climate. He also gave information about Panchavati Vana, Navagraha Vana, Rashi Vana. Dr Somshekhar Uddar of Sanjeevini Ayurveda university, Hubli, told that in Ayurveda there are different rules, but people follow malpractice. He also told about the permission and renewal of the medicinal products.

Dr. Subhramanya Kumar from Bengaluru told about the various uses of medicinal plants, how to cultivate them and what could be the possible side effects of these medicinal products. Shri.Rudresh Gulaguli, who is one of the very prominent farmer from Gadag told that he generates a revenue of 4 lakhs every year. He's an expert in cultivating drumsticks. Drumsticks have various medicinal uses. He spoke about the obstacles as well as the difficulties that exist between the buyer and the grower of these medicinal plants.

Dr. S.V Nadagounder of Gadag told that in coming days we should visit the Kappatagudda and interact with the localities over there to understand more about its biodiversity.

The state level conference was successfully conducted on June 8<sup>th</sup> and 9<sup>th</sup>, it was fruitful to the farmers for gaining the knowledge about the medicinal plants and also how to maintain the crops.

## Guest Lecture Report

### **JOURNEY OF ISRO: FROM HUMBLE BEGINNINGS TO SPACE EXPLORATION PIONEERS**

Guest lecture was conducted on 13<sup>th</sup> June, 2024 at KLE College of Pharmacy, Hubballi, Dr. BHM Darukesh, Scientist and Space Science Communicator, ISRO, Bengaluru as a resource person.

During the lecture he covered the basic concepts and job opportunities in the above said field. The lecture was attended by 50 students of B.Pharm, M.Pharm and Pharm D of KLE College of Pharmacy, Hubballi. Constructive feedback was obtained from the participants.

## Workshop Details:

- Launching a new drug molecule into the market involves a tedious time and money consuming drug discovery process which may cost a whopping 2.6 billion USD and may last for a time span of 14 years or more. Assisted drug discovery processes can shorten the time length and prove to be feasible economical. Molecular docking is a computational simulation method used in drug design and discovery that helps to predict the binding affinity and orientation of a ligand molecule to a protein target. Molecular docking algorithms use several sophisticated techniques to explore the conformational space of the ligand and the protein target and predict the optimal docked orientation and binding affinity of the ligand to the target protein. Once a set of candidate compounds have been predicted, they can be optimized through further computational and experimental studies, such as molecular dynamics simulations and structure-activity relationship studies, to fine-tune their molecular properties and optimize their pharmacokinetic and pharmacodynamics profiles.
- Three dimensional printing is a novel technology which can be used for fabrication of personalized medicines. The technique involves using a wide variety of procedures which are assembled together which have computer aided drug design as a base and which has the mechanism of controlled deposition of materials layer by layer providing products of superior quality which are customized with improved safety and efficacy. 3D printing, also known as additive manufacturing, has emerged as a promising technology in the pharmaceutical industry for its ability to produce customized, high-quality, and complex dosage forms.

**Mr. Amit Vernekar** briefly explained the lean startup methodology, emphasizing the rapid iterative development that meets the market needs.

**Mr. Amit Vernekar** also conveyed the concept of Minimum Viable Product for the development of business idea's with minimal resources. He also highlighted the significant role of MVP in business development strategies. The MVP plays a crucial role in ensuring that a startup's efforts are aligned with market needs and customer desires. It allows for efficient use of resources, faster time-to-market, and the ability to adapt and pivot based on real feedback. Ultimately, the MVP is about building the right product by learning as much as possible with the least effort.

**Dr. Fatima S Dasankoppa** has introduced various case studies and examples that foster the development of viable products and find novel solutions to the problem. Mam has also pitched her idea into a viable product for the treatment of burn injuries.

#### **Benefits of the Workshop:**

The outcome of the workshop was assessed by obtaining feedback from all the registered delegates, they were acquainted with the different concepts of Lean Startup and Minimum Viable Product, like Product-Market Fit, Problem Identification, Build-Measure, and Customer Development. The delegates were also introduced to the concept of Minimum Viable Product (MVP) like Pivoting, Innovation Accounting, Customer Acquisition, Retention, and Scaling. The delegates were also exposed to different group activities and case studies to better understand its way functioning and evaluation.

This workshop covered the topics that they had expected and the concepts learned can be implemented for innovation, continuous improvement and customer needs. Hence, the outcome of the workshop was fulfilled with the following objectives:

- Identify problems using unbiased observational records
- Develop a product that fits market needs and is scalable
- Engage with customers to refine solutions and launch a Minimum Viable Product (MVP)
- Focus on continuous improvement and scaling the business.

Title: "Enhancing Neurosurgical Skills: Leveraging Animal Models for Neurodegenerative Disorders"

Date: 20<sup>th</sup> Sep 2024

Name of the Convenor: Dr. AHM Viswanath swamy

Name of the Co-ordinator: Dr. N M Jeedi

Total Participants: 43

### **Introduction of the workshop**

Animal models are essential for enhancing neurosurgical skills and understanding neurodegenerative disorders, as they provide critical insights into disease mechanisms and therapeutic strategies.

Animal models have emerged as vital tools in this endeavor, providing researchers with the ability to investigate the underlying mechanisms of neurodegeneration and to evaluate potential therapies before clinical application. Historically, rodent models have dominated this field due to their genetic manipulability and relatively short life cycles. However, they often fail to replicate the full spectrum of human disease pathology, particularly the overt neurodegeneration that characterizes these disorders.

Role of Animal Models in Neurosurgery:

Animal models, particularly rodents, have been pivotal in elucidating the molecular pathways involved in neurodegenerative diseases like Alzheimer's (AD), Parkinson's (PD), and Huntington's disease (HD). These models allow researchers to investigate genetic mutations and their effects on neuronal function, although many rodent models do not exhibit the overt neurodegeneration characteristic of human conditions, limiting their utility for therapeutic testing.

This workshop was conducted to train the students for animal handling during the experiments and understand the animal models study better.

### **Details of the workshop**

The workshop was anchored by **Mrs.Neha Mali**, Assistant Professor, Department of Pharmacology, KLE College of Pharmacy, Hubballi.

The formal inaugural function began with a soulful invocation song performed by Ms. **Shivani Shele** M Pharm II<sup>nd</sup> year student. The song, which invoked blessings and set a serene tone for the event, was a beautiful and traditional way to commence the proceedings. It created an atmosphere of reverence and focus, preparing everyone for the day's activities.

Following the invocation, **Dr. N.M Jeedi, HOD Dept. of Pharmacology**, Program Co-coordinator delivered the welcome address. In his welcome address, he highlighted the significance and the applications of using animal models study .

**“As we light this lamp, let it be a symbol of enlightenment, illuminating our minds with knowledge and wisdom, our hearts with purity and our paths with inspiration”.**

The Lighting of Lamp was gracefully performed by the Principal Sir, Program Coordinators, and Dr. Mallappa Shalavadi respected speakers of this workshop.

Dr.S.B Patil briefly explained about the workshop and followed by introduction of the resource person by Dr. S.K Nimabl .

**Dr. AHMV Swamy, Principal KLE College of Pharmacy, Hubballi** graciously extended presidential remarks for the workshop.

The vote of thanks is a crucial component of any workshop, serving as a formal expression of gratitude, recognition, closure, and encouragement. It reinforces positive relationships, fosters a sense of community, and leaves a lasting impression on participants. The vote of thanks was proposed by **Dr. Laxmi Pattanashetti , Assistant Professor, KLE College of Pharmacy, Hubballi.**

Hands-on training is essential for translating theoretical knowledge into practical skills. It fosters active engagement, enhances problem-solving abilities, provides immediate feedback, and prepares participants for real-world applications.

Followed by the lecture was continued by the speaker Dr. Mallappa shalavadi on **Neurosurgical Skills.**

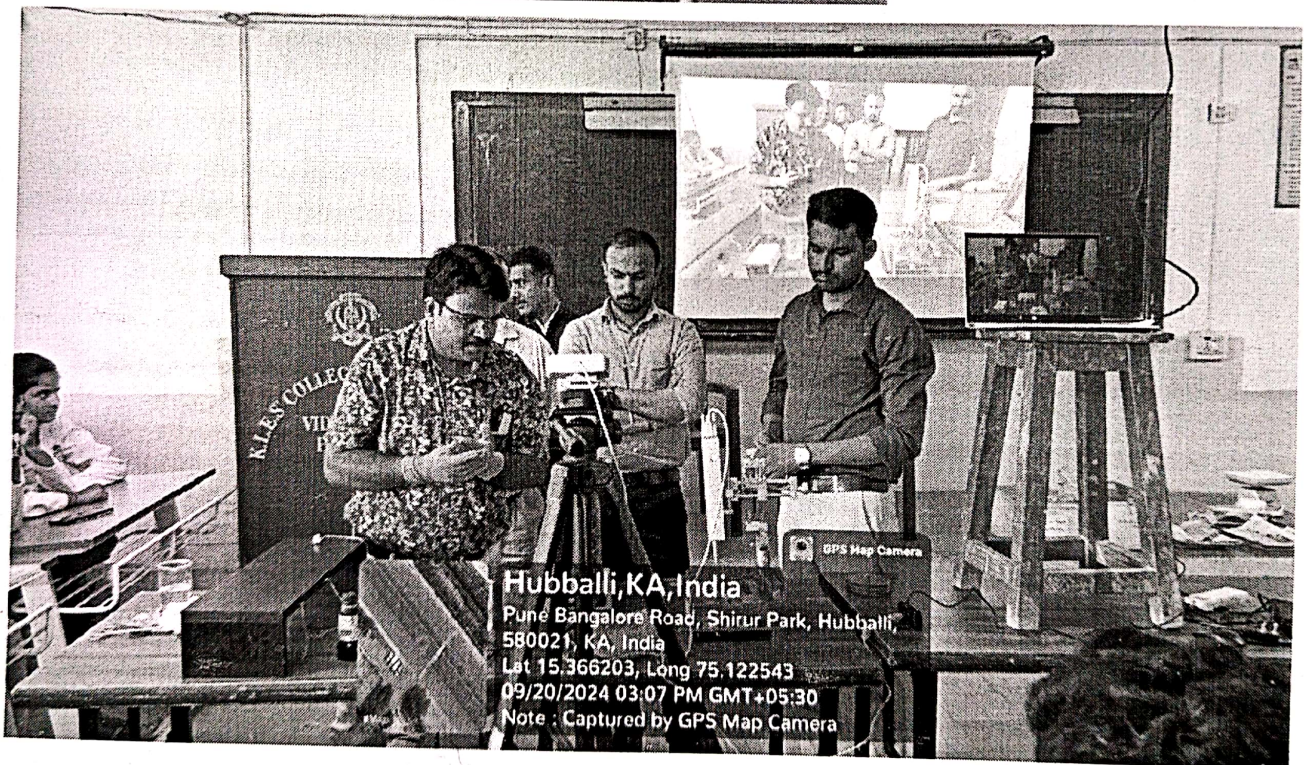

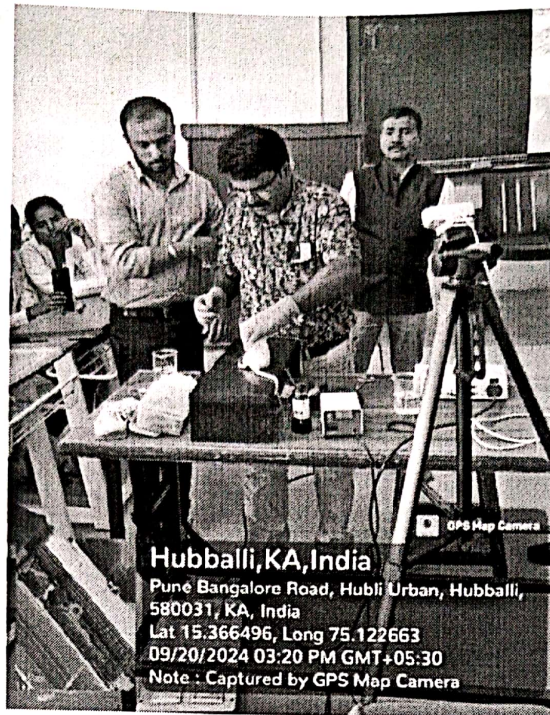

In the afternoon session hands on training was conducted.

His address highlighted the role of Critical thinking in quality Publication in producing reliable and impactful outcomes, how it can enhance the clarity, impact, and relevance of research work.

#### **Session No. 1**

**Dr. F. S. Dasankoppa** Professor, Department of Pharmaceutics, KLE's College of Pharmacy, Hubballi, opened the workshop with a detailed session on the "Critical Analysis, Synthesis of Literature and Writing a Compelling Introduction of review article" In this session, Dr. Dasankoppa introduced keyemphasized the importance of evaluating sources critically to identify gaps and establish connections in research. Synthesizing literature involves integrating diverse findings to create a cohesive narrative, highlighting key themes and trends. Writing an impactful introduction requires clarity in presenting the scope, significance, and objectives of the review. A strong introduction sets the stage for readers, drawing them into the context and relevance of the topic. Mastering these elements is essential for producing insightful and engaging review articles.

#### **Session No. 2**

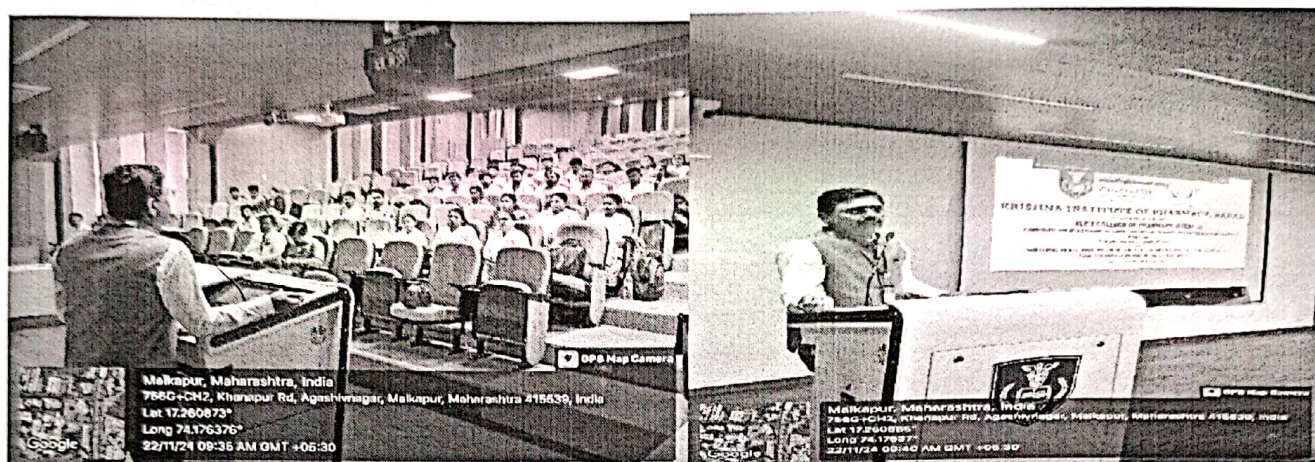

**Dr. Riyaz Ali Osmani** Assistant Professor, Department of Pharmaceutics. JSS College of Pharmacy, JSS AHER, Mysore, followed with an insightful presentation on "Tips for clear and concise scientific writing of review articles", Dr. Osmani highlighted strategies for effective communication. Emphasizing simplicity and precision, the session encouraged avoiding jargon and redundancy while focusing on clarity of thought. Structuring content logically ensures coherence, guiding readers through complex ideas seamlessly. Maintaining an active voice and using precise vocabulary enhances readability and impact. These principles are crucial for producing accessible and compelling scientific review articles.

	<p><b>Session No. 3</b></p> <p><b>Dr. Mrs. A. N. Chivate</b>, Assistant Professor, Department of Pharmacology KIP KVV Karad, conducted an engaging and interactive session on “Writing of systematic reviews” Dr. Chivate guided participant’s uunderscored the importance of a structured and transparent approach to summarizing existing research. It emphasized clearly defining research questions, employing rigorous methodology for literature selection, and maintaining consistency in data extraction and analysis. A systematic review must present findings objectively, highlighting patterns, gaps, and implications for future research. The importance of detailed documentation to ensure reproducibility and credibility was also stressed. By adhering to these principles, systematic reviews provide valuable and reliable contributions to the scientific community.</p>

## **Report on Workshop: Empowering Campus Safety - Chemical Handling and Awareness for Non-Teaching Staff:-**

### **Introduction:**

The workshop, "Empowering Campus Safety: Chemical Handling and Awareness for Non-Teaching Staff," was conducted to equip non-teaching personnel with essential knowledge and skills to ensure a safe campus environment. The session aimed to highlight the importance of proper chemical handling, storage, and disposal while fostering a culture of safety and preparedness.

### **Objectives:**

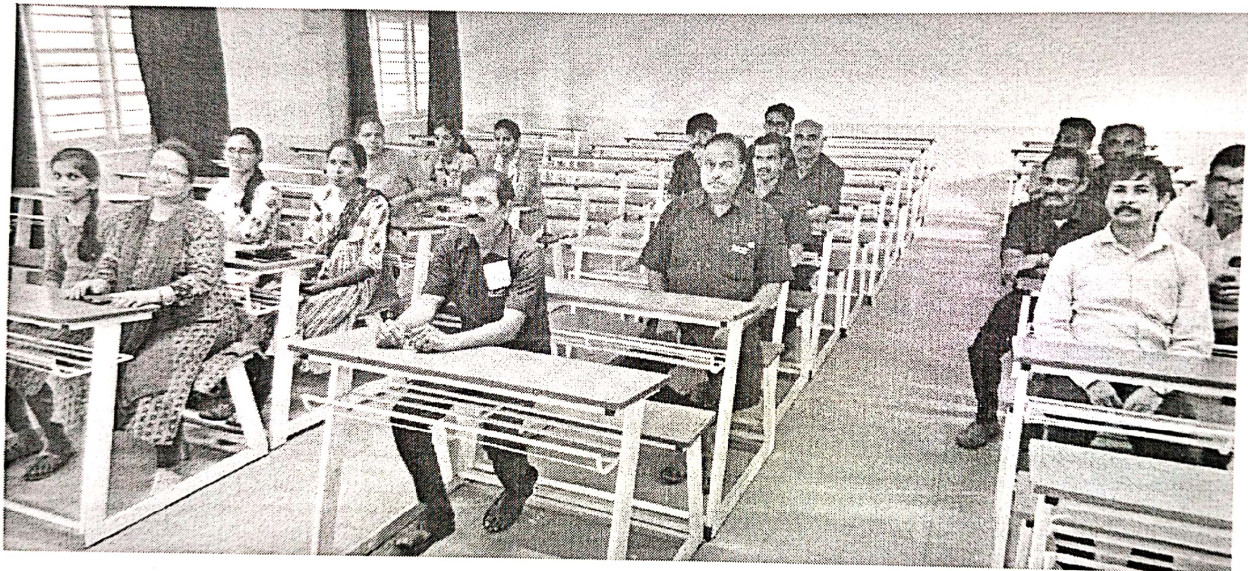

The primary objectives of the workshop were:

1. To raise awareness about the hazards associated with chemicals used on campus.
2. To educate participants on safe practices for handling, storing, and disposing of chemicals.
3. To introduce essential emergency response protocols in case of chemical incidents.
4. To empower non-teaching staff to play a proactive role in campus safety.

### **Workshop Agenda:**

1. Welcome and Introduction: Overview of the workshop's purpose and significance.
2. Understanding Chemical Hazards: Presentation on types of chemicals commonly used on campus and their potential risks.
3. Safe Handling Practices: Demonstration of appropriate techniques for handling chemicals, including the use of personal protective equipment (PPE).
4. Chemical Storage and Disposal: Guidelines for proper storage to prevent accidents and environmentally responsible disposal methods.
5. Emergency Response: Practical steps to manage chemical spills, exposure, and fire incidents.
6. Interactive Q&A Session: Open floor for participants to address their queries and share experiences.

Sl. No	Particulars	Information
1	Name of the program	Workshop on one and two Dimensional NMR Spectroscopy
2	Program organized by	Dr. Prabhakar B Kore, Basic Science Research Centre (BSRC) off campus, KLE College of Pharmacy, Bengaluru
3	Department/ Association involved	Department of Pharmaceutical Chemistry, KLE College of Pharmacy, Bengaluru
4	Date	20/03/2024 and 21/03/2024
5	Duration	2 days
6	Location	Sharada Sabhangana, KLE College of Pharmacy, Bengaluru
7	Objective/s of the program	Objective of workshop is to equip participants with the theoretical knowledge and practical skills necessary for interpreting complex spectra, elucidating molecular structures, and exploring the diverse applications of NMR spectroscopy across various scientific disciplines.

## Conference Report: From Inception to Completion

The inception of the National conference 2024 **“Homoeo Healing Voyage- A Journey towards Excellence”** began with identifying the need for such an event, setting objectives, and defining the target audience in the month of August 2023 in association with Karnataka Qualified Homoeopathic Doctors Association (KQHDA), Bangalore. A team was assembled to oversee the planning and execution of the conference. Roles and responsibilities were delegated among committee members. A theme **“Non-Communicable disease”** was selected which is the need of an hour. The conference was finalised on Saturday and Sunday 10<sup>th</sup> and 11<sup>th</sup> February 2024 and a suitable venue (KLE Centenary Convention Centre, JNMC Campus Nehru Nagar, Belagavi) was chosen based on factors such as accessibility, capacity, and facilities. A budget was drafted outlining expenses for venue rental, catering, marketing, printing and stationery, delegate kit, travelling allowances of speakers, and other logistical arrangements. After working out the budget registration fees was finalised.

Keynote speakers were invited based on their expertise and relevance to the conference theme. A comprehensive marketing strategy was developed to promote the conference through various channels, including social media, email newsletters, and partnerships with relevant organizations. An online registration system was set up to streamline the registration process for attendees, speakers, and sponsors. Logistics such as audio visual equipment, signage, catering, and accommodation were arranged to ensure a seamless experience for participants. We were successful in receiving 892 registrations from 11 different states across the country.

On the day of the conference, participants were greeted at registration desks and provided with conference materials and schedules. Dr K R Janandanan Nair president MARB, NCH New Delhi was the chief guest for the conference. Dr Sanjay Gupta, Secretary NCH New Delhi was the guest of Honor. The inauguration ceremony was presided by Dr Nitin Gangane Vice-Chancellor KAHER, Belagavi. The august gathering was welcomed by Dr M A Udachankar Director Administration KLE Homoeopathic Medical College, Belagavi. Vote of thanks was delivered by Dr Swaroopa Patil Principal KLE Homoeopathic Medical College, Belagavi.

Dr K R Janandanan Nair, Dr Sanjay Gupta, Dr Navin Pawaskar, Dr Shashi Kant Tiwari, Dr Bhuvaneswari, Dr Praveen Jain, Dr Anoop Nigwekar, Dr Shreepad Hegde, Dr B D Patel, Dr Ajit Kulkarni were the key note speakers. They offered unique perspectives, knowledge, and insights on relevant topics. A competition on Scientific Paper and Poster Presentations were organized simultaneously in different seminar halls to facilitate a platform to the Practitioners, faculty members, PhD, PG and UG students to showcase their knowledge and hard work in the field of research. There were total 42 Scientific Paper Presentations and 24 Poster Presentations. The judges for Scientific Paper Presentations were Dr Shivprasad, Dr Madan, Dr Shaila Udachankar, Dr Anand Hosur, Dr Lingraj Magdum, Dr Kiran Patil and the judges for Poster Presentations were Dr Avinash Mhetre, Dr Milind Kulkarni, Dr Nagaraja Havalada and Dr Adil Jamal Quadri. Total 8 different Homoeopathic pharmaceutical companies such as Wilmar Schawbe, SBL, Wheezal, Padma Homoeo Pharmacy, Prasad Homoeo Pharmacy, IBPS, HOMPAT

Software and Bakson Pharma had displayed the stalls at the conference venue. On day one of the conference the scientific session was followed by cultural event and a gala dinner at the JNMC lawn.

The scientific sessions of both the days were well appreciated by all the delegates. Dr M S Ganachari Registrar KAHER, Belagavi was the Chief Guest for the valedictory function. Report reading was done by Dr Swaroopa Patil Organizing Secretary of the conference. Dr Chetan Kamble Joint Organising Secretary of the conference announced the winners of the Scientific Paper and Poster Presentations. A token of appreciation was given to various colleges who has participated in the conference and the sponsors. Vote of thanks was delivered by Dr Supriya Kulkarni. Compering at the conference was done by Dr Jessica Monterio and Dr Rinku Porwal.

This conference provided a platform for networking among attendees, speakers, and sponsors. Feedback forms were distributed to gather input from delegates on the content, organization and overall experience of the conference.

The organizing committee evaluated the success of the conference based on attendance, feedback, and achievement of objectives. Expenses were reconciled against the budget, and financial reports were generated to assess the financial performance of the conference. Attendees, speakers, and sponsors were thanked for their participation, and post-conference communications were sent out to provide additional resources and information. A comprehensive report summarizing the conference proceedings, feedback, and outcomes was prepared for stakeholders, sponsors, and future reference.

Overall, the conference was a successful endeavour, providing valuable insights, networking opportunities, and knowledge exchange for all participants.

**Workshop Title:**  
**Harnessing Nature's Diversity: Integrating Phytochemicals, Cell Culture & Bioinformatics for Drug Delivery**

**Organized by:**

**Dr. Prabhakar Kore Basic Science Research Center (BSRC), KLE Academy of Higher Education and Research (KAHER)**

**Sponsored by Indian Council of Medical Research (ICMR)**

**Overview:**

The ICMR-sponsored workshop scheduled from July 1st to July 6th, 2024, aims to provide in-depth knowledge and hands-on experience in the areas of bioinformatics, cell culture, and phytochemical research. This workshop is designed for researchers, academicians, and students to enhance their skills in modern biotechnological techniques and drug delivery systems.

**Key Objectives:**

- **Exploration of Phytochemicals:** Delve into the diverse array of phytochemicals found in medicinal plants, with an emphasis on their therapeutic properties and potential applications in drug development.
- **Integration of Techniques:** Integrate bioinformatics, cell culture, and flow cytometry methodologies to analyze, characterize, and optimize phytochemicals for drug discovery purposes.
- **Hands-on Training:** Provide practical training sessions where participants can gain proficiency in various techniques, including sequence alignment, cell culture protocols, and flow cytometry data acquisition.
- **Collaborative Learning:** Foster collaboration and knowledge exchange among participants, facilitating interdisciplinary approaches to drug discovery and development.
- **Career Development:** Offer insights into career opportunities and advancements in the fields of bioinformatics, cell culture, and flow cytometry, empowering participants to pursue impactful research endeavors.

**Day 1: July 1, 2024**

The workshop began with a registration and breakfast session, setting a collegial tone for the event. The inaugural session followed, where the workshop's objectives and significance were highlighted. Dr. Virupaksha Bastikar, a distinguished professor from Amity University, Mumbai, delivered the first didactic lecture of the workshop. His session covered crucial bioinformatics tools and techniques, including the analysis of physicochemical properties of proteins using the ProtParam tool, secondary structure prediction with SOPMA/JPred, and pattern determination in proteins using ScanProsite. He also introduced participants to phylogenetic tree construction, discussing both rooted and unrooted trees.

Following the tea break, Dr. Bastikar continued with a lecture on functional protein annotation using the STRING tool and demonstrated restriction mapping with the Restriction Mapper tool. The session was highly interactive, with participants actively engaging in discussions and hands-on practice. After lunch, Dr. Bastikar introduced advanced topics such as primer design using Primer3/WebPrimer and protein-ligand docking with Autodock Vina. The day concluded with extensive hands-on training, where participants applied the concepts learned in real-time under the expert guidance of Dr. Bastikar.

## **Day 2: July 2, 2024**

The second day of the workshop focused on biological databases and sequence analysis. Dr. Ashok Verma from Tata Memorial Centre ACTREC, Navi Mumbai, delivered a comprehensive lecture on the use of biological databases such as NCBI, ExPASy, and specialized databases like PUBMED, OMIM, and KEGG Pathway DB. He demonstrated the retrieval of protein structures from the Protein Data Bank (PDB) and their visualization using PyMOL, alongside a comparison with models retrieved from AlphaFold.

After a brief tea break, Dr. Verma guided participants through the retrieval of nucleic acid and amino acid sequences from primary databases. The session covered essential techniques such as pairwise sequence alignment, both global and local, and sequence similarity searches using the BLAST tool. The lecture concluded with a discussion on multiple sequence alignment using Clustal W/Omega tools. The afternoon was dedicated to hands-on training, allowing participants to practice these techniques under the supervision of Dr. Verma, reinforcing their understanding of bioinformatics tools.

## **Day 3: July 3, 2024**

On the third day, the workshop shifted focus to cell culture techniques. The day began with a breakfast session, followed by a didactic lecture on the basic principles and techniques of cell culture by Dr. Deepa Mane. She covered foundational aspects such as cell revival, trypsinization, Trypan Blue assay, subculture, cryopreservation, and cell seeding for MTT assays. This lecture was particularly valuable for participants with an interest in cellular biology and drug testing.

After a short break, the workshop continued with a demonstration and hands-on training session, where participants practiced the techniques discussed earlier in the day. This session was led by Dr. Mane and the BSRC cell culture team, who provided close guidance and feedback to ensure that participants mastered the procedures.

In the afternoon, Dr. Sanjeev Waghmare presented a lecture on the development and characterization of primary cell lines, followed by a hands-on training session on developing primary cell lines from explant culture. Participants gained practical experience in these advanced techniques, which are crucial for research in cellular biology and therapeutic development.

## **Day 4: July 4, 2024**

The fourth day began with a focus on the MTT assay, a critical technique for assessing cell viability and cytotoxicity. Dr. Deepa Mane and her team conducted a hands-on demonstration and training session on compound dilution and the addition of MTT dye for the assay. This

practical session allowed participants to gain a thorough understanding of the MTT assay process.

After a tea break, Dr. Syed Hasan delivered a lecture on the basics of cell culture and cytotoxicity assays, emphasizing their importance in drug development. This was followed by a hands-on session where participants designed Sg RNA and Cr RNA, and set up CRISPR-CAS12 reactions, providing them with practical insights into genome editing technologies.

The afternoon sessions delved deeper into CRISPR technology. Dr. Hasan provided an introduction to CRISPR, covering its applications in gene knockout/knockin and its role in diagnosis. Participants engaged in another hands-on session, continuing their work on CRISPR-CAS12 reaction setups. The day concluded with a practical demonstration of the MTT assay and calculation of IC50 values, led by Dr. Mane and the cell culture team. This session reinforced the day's learning objectives and provided participants with critical skills for evaluating drug efficacy.

### **Day 5: July 5, 2024**

The fifth day was dedicated to flow cytometry, an essential technique for cell analysis. The day began with a didactic lecture by Dr. Vijay M. Kumbar on the fundamentals of flow cytometry. He discussed the principles behind the technology, its various applications, and the importance of data acquisition.

Following the lecture, participants engaged in hands-on training sessions, where they practiced flow cytometry data acquisition under the guidance of Dr. Kumbar and the BSRC team. After lunch, Miss Maya Ravishankar Gupta delivered a lecture on the clinical and research applications of flow cytometry, providing participants with a broader perspective on the technology's significance in both academic research and clinical diagnostics.

The afternoon sessions included further hands-on training, focusing on sample preparation for cell cycle analysis. Participants were able to apply the knowledge gained from the lectures in a practical setting, ensuring a comprehensive understanding of flow cytometry techniques.

### **Day 6: July 6, 2024**

The final day of the workshop served as a wrap-up session, providing participants with the opportunity to review and consolidate their learning. The day included final hands-on practice sessions, where participants could revisit any of the techniques covered during the workshop. The event concluded with a valedictory session, where certificates of participation were distributed. The workshop was a resounding success, offering participants a unique opportunity to gain hands-on experience and expert knowledge in the integration of phytochemicals, cell culture, and bioinformatics for drug delivery.

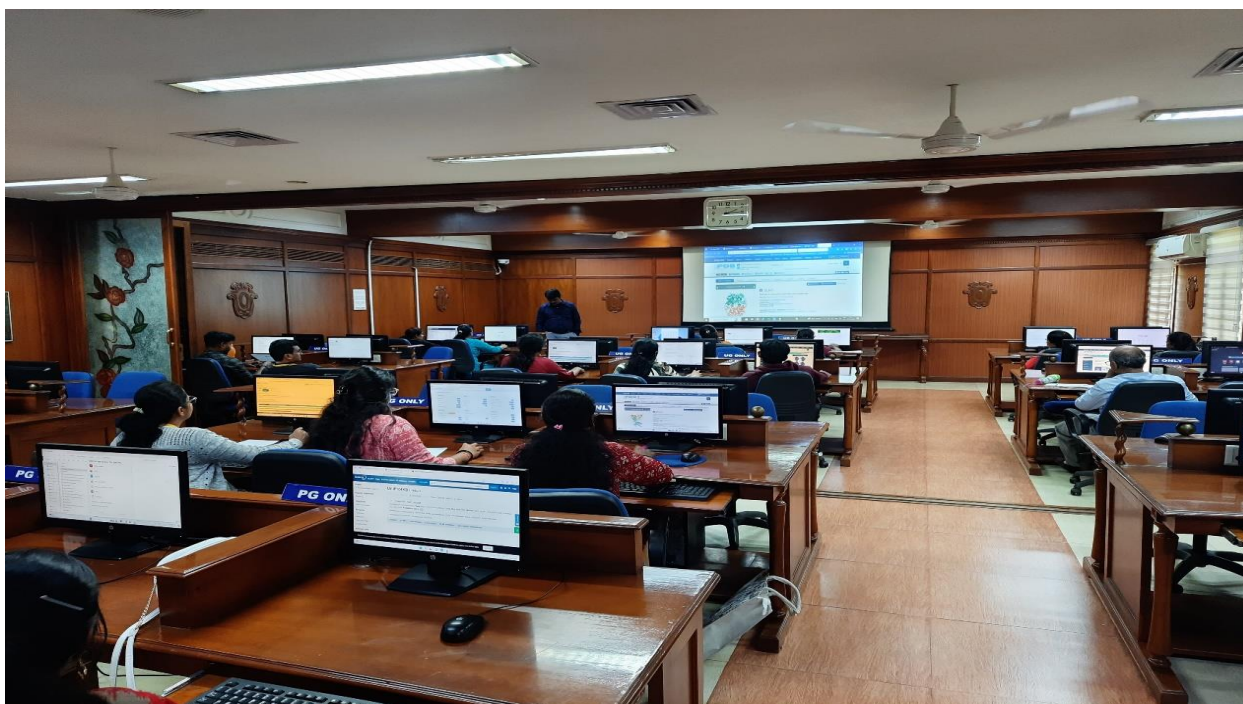

Inauguration Ceremony of Hand on workshop of Harnessing Nature's Diversity: Integrating Phytochemicals, Cell Culture & Bioinformatics for Drug Discovery.

Lightening of Lamp by Vice-chancellor Dr. Nitin Gangane, Principal VKIDS Dr. A Kale, Director BSRC Dr. Ramesh Paranjape, HOD Cell culture Dr. Deepa Mane and Dr. Vijay Kumbhar.

Dr. Virupaksha Bastikar, a distinguished professor from Amity University, Mumbai, delivered the didactic lectures and Hands On workshop at Digital Library KAHER. His session covered crucial bioinformatics tools and techniques, including the analysis of physicochemical properties of proteins using the ProtParam tool, secondary structure prediction with SOPMA/JPred, and pattern determination in proteins using ScanProsite.

Dr. Ashok Verma from Tata Memorial Centre ACTREC, Navi Mumbai, delivered a comprehensive lecture and Hands on Workshop on the use of biological databases such as NCBI, ExPASY, and specialized databases like PUBMED, OMIM, and KEGG Pathway DB.

Dr. Faizal from ICMR-National Institute of Traditional Medicine, Belagavi, delivered a comprehensive lecture and Hands on Workshop on Network pharmacology.

Dr. Deepa Mane delivering lecture on Introduction to Cell Culture. She covered foundational aspects such as cell revival, trypsinization, Trypan Blue assay, subculture, cryopreservation, and cell seeding for MTT assays. This lecture was particularly valuable for participants with an interest in cellular biology and drug testing.

Dr. Sanjeev Wagmare from Tata Memorial Centre ACTREC, Navi Mumbai, presented a lecture and Hands on workshop the development and characterization of primary cell lines, followed by a hands-on training session on developing primary cell lines from explant culture.

Hands on training of Developing Primary Cell Lines from Explant Culture at BSRC KAHER

Dr. Hasan provided an introduction to CRISPR and covering its applications in gene knockout/knockin and its role in diagnosis. Also, his student Darshan explained the Hands Training on CRISPR

Dr. Vijay M. Kumbar covered the on the fundamentals of flow cytometry. He discussed the principles behind the technology, its various applications, and the importance of data acquisition. Miss Manjula shown the sample preparation and Dr Vijay given hands tranning on cell cycle apoptosis cells and analysis .

## **UDEHP Workshop Report**

**Title: "STRATEGIC APPROACHES IN IMPROVISING NIRF"**

**Date: 31/01/2024**

**Venue: KAHER's College of Pharmacy, Hubballi**

**INTRODUCTION:** The National Institutional Ranking Framework (NIRF) is an initiative by the Government of India to rank institutions of higher education in the country. NIRF ranks institutions based on various parameters, including teaching, learning, research, outreach, and overall performance. The primary reasons why institutions need NIRF rankings because it encourages institution to focus on improving their overall quality in terms of teaching, research, infrastructure, and other key parameters. Higher rankings may attract international students, faculty, and collaborations, thereby enhancing the global reputation of the institution. This competition fosters a culture of continuous improvement and innovation.

### **OBJECTIVES:**

- To provide insights into the weightage assigned to each parameter and its significance in the overall ranking.
- To provide tools and methodologies for setting realistic and achievable goals for enhancement.
- To understanding strategies for improving the quality of teaching and learning methodologies within the institution.
- To help participants identify areas of strength and weakness in their institution's performance.

**Title: "AI DRIVEN TRANSFORMATION IN EDUCATION: INFLUENCE ON THE  
TEACHING LEARNING METHODOLOGY"**

**Date: 20/02/2024**

**Venue: KAHER's College of Pharmacy, Belagavi**

**INTRODUCTION:** "Teaching, learning and evaluation are important components of any education system. Teaching faculty are responsible for training highly skilled graduates in Science & Technology who carry out cutting edge research, collaborate with industry, and create start-ups. AI tools have the potential to greatly enhance the learning experience and improve the overall efficiency and effectiveness of pharmacy colleges with the aid of AI assisted tools we can provide support and guidance to both students and teachers alike to improve their knowledge, skills as well as performance. AI powered tutoring system can enhance learning g experience for the students making it interactive as well as adaptive for them. Adopting modern innovative teaching methods, embracing the use of information technology AI tools in education empowers both students, teachers; provide meaningful gains to students in terms of academic performance, outcomes, achievement. It's important that science teachers need to inspire, develop innovation, patenting and entrepreneurial thinking mindset among students."

### **OBJECTIVES:**

- To sensitize teachers about utilization of technology in teaching learning methodology like use of AI.
- To provide hands on training to upskills them for the implementation of AI tools for effective teaching learning

### **RESOURCE PERSONS:**

1. Dr. Jayasree Rudagi Professor and HOD, Dept. of Artificial intelligent and Data science, SG Balekundri Institute of Technology, Belagavi.

**Title: "RESEARCH PROPOSAL AND HOW TO PUBLISH IN HIGH IMPACT JOURNALS"**

**Date: 07/03/2024**

**Venue: Seminar Hall, KAHER INS, BELAGAVI**

**INTRODUCTION:** Journal articles are the primary medium for scholarly communication. High impact journals are the curators of scientific effort and progression. The features that these journals are always on the lookout for in manuscripts are originality and the capacity of the article to inspire new research and discussion. As a budding researcher, one wants to publish their research in a high-impact journal. Being able to write good journal article is becoming a key ingredient for successful appraisals, promotions and career mobility.

### **OBJECTIVES:**

- Understand the culture of science publishing and why it is important to publish.
- Develop the skills required to write well-structured and easy-to-read scientific articles, including the ability to be precise, clear, concise and interesting.
- Understand the publishing process and how to select a journal including why manuscripts get accepted/rejected
- Understand how to respond effectively to reviewers' comments.

**Title: "A WAY TOWARDS PROFICIENCY IN CLINICAL SKILLS AND ASSESSMENT"**

**Date:11/03/2024**

**Venue: KAHER's JGMM Medical College, Hubballi**

**INTRODUCTION:** Clinical skills program plays an important role in undergraduate medical curriculum. Intensive training in clinical skills from the beginning of Medical Education tenure helps in building a good medical career. Clinical skills are learned through different procedure under the guidance of clinicians followed by performing the same procedure under supervision. Clinical skills lab session can be blended with traditional bedside teaching to give a completeness in clinical teaching in the undergraduate curriculum. As the clinical skills session uses simulators, mannequins, simulated patients and case scenarios it builds proper concept and helps the student to perform in a better way independently at any health care setting.

Clinical skills laboratories are an ideal educational environment for the students to learn a wide range of skills in a self-directed pace getting immediate feedback. Clinical skills build self-esteem amongst the budding Indian Medical Graduates which develops their competence and in turn helps in holistic strengthening of the health care team.

### **OBJECTIVE:**

The participants will be able -

- To understand the importance of clinical skills in medicine.
- To design OSCI and viva stations for undergraduates & post graduates.
- To understand the details of clinical clerkship & log book documentation.

### **RESOURCE PERSONS:**

1. Dr Archana Dambal, Professor, Department of Internal Medicine, SDM College of Medical Sciences and Hospital, Dharwad

### **Title: "A ROAD MAP TO RESEARCH"**

**Date: 22/03/2024 & 23/03/2024**

**Venue: Sharada Sabhangana Auditorium**

**INTRODUCTION:** In today's fast-paced world, where knowledge evolves at an unprecedented rate, research serves as the cornerstone of progress and innovation. Research is not merely a series of systematic investigations; it is a journey of exploration, discovery, and enlightenment. It empowers us to unravel the mysteries of the universe, challenge existing paradigms, and contribute meaningfully to the collective pool of human understanding. However, like any journey, research requires careful planning, perseverance, and a clear sense of direction.

### **OBJECTIVES:**

**INTRODUCTION:** Systematic reviews are comprehensive analyses that systematically collect, appraise, and synthesize existing evidence on a specific research question or topic. They follow a structured methodology to minimize bias, ensuring a reliable summary of current knowledge. They are crucial for evidence-based decision-making in healthcare, policy, and various fields, providing a foundation for informed choices, identifying gaps in knowledge, and guiding future research directions. The workshop focused on the three aspects of When How and Why of systematic reviews.

**OBJECTIVE:** The participants should be able:

**Title: "EXPLORING EDUCATIONAL RESEARCH IN MEDICAL AND HEALTH PROFESSIONALS  
EDUCATION"**

**Date: 19/04/2024**

**Venue: Conference Hall, Department of Medical Education, JNMC**

**INTRODUCTION:** Educational Research in Health Professionals Education is a dynamic field that encompasses a wide range of methodologies aimed at understanding and improving the learning and teaching processes within healthcare disciplines. This type of research explores various aspects of education, including curriculum development, instructional methods, assessment strategies and the impact of technology on learning outcomes. By investigating these areas, educational researchers seek to enhance the quality of education provided to health professionals, ultimately improving health care and patient care outcomes.

**OBJECTIVES:**

At the end of the Session/Program, one shall be able to understand

1. Understand the importance of educational research in medical and health professions education.
2. Learn key research methodologies and techniques applicable to educational research.
3. Explore best practices in conducting educational research in medical and health professions education.
4. Apply theoretical knowledge through hands-on activities.
5. Foster collaboration and networking among professionals from various healthcare fields.

**Title "INTRODUCTION TO BIOINFORMATICS FOR HEALTH PROFESSIONALS"**

**Date:24/04/2024**

**Venue: KAHER's Dr Prabhakar Kore Basic Science Research Centre, Belagavi.**

**INTRODUCTION:** Bioinformatics is a multidisciplinary field at the intersection of biology, computer science, and information technology. It involves the application of computational techniques to analyze and interpret biological data, particularly large datasets generated from biological experiments. The primary goal of bioinformatics is to gain insights into biological processes, such as gene expression, protein structure, and evolutionary relationships, through the analysis of biological data. This can include DNA sequences, protein sequences, gene expression profiles, and more. By harnessing computational methods and algorithms, bioinformatics enables researchers to efficiently store, retrieve, and analyze vast amounts of biological data, leading to discoveries that advance our understanding of life processes and improve human health and well-being.

**OBJECTIVES:**

The participants should be able to:

- Showcase the Significance of Bioinformatics
- Provide Networking Opportunities
- Educate on Essential Tools
- Demonstrate Practical Application
- Inspire Future Endeavours

**RESOURCE PERSONS**

1. **DR. VIRUPAKSHA A. BASTIKAR**
2. **DR. V.G. SHANMUGA PRIYA**

**NUMBER OF PARTICIPANTS: 48**

External: 33

Internal: 15

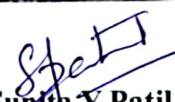

**CONCLUSION:**

With insightful presentations from Dr. Shanmuga Priya and Dr. Bastikar, participants gained a comprehensive understanding of essential bioinformatics tools and their practical applications in medical research. Through case studies and demonstrations, attendees witnessed firsthand how bioinformatics enables the analysis of complex biological data, aiding in drug discovery and genomic studies.

By fostering networking and collaboration opportunities, the workshop encouraged professionals to harness the transformative potential of bioinformatics in advancing healthcare. As we look ahead, the event illuminated the vast scope and profound impact of bioinformatics, paving the way for innovative research endeavours and interdisciplinary collaboration in the field of health sciences.

**Date: 29/04/2024**

**Venue: Conference Hall, Department of Medical Education, JNMC**

**INTRODUCTION:** The landscape of health professions education is continually evolving, driven by advances in medical science, technology, and our understanding of effective pedagogical strategies. Curriculum renewal is a critical process that ensures educational programs remain relevant, responsive, and effective in preparing future healthcare professionals for the dynamic healthcare environment. This interactive and participatory workshop will provide ample opportunities for discussion, experience sharing, and practical application of the concepts and strategies discussed.

**OBJECTIVES:**

- To describe the need for curriculum renewal in health professions education.
- To familiarize participants with various models and approaches to curriculum renewal.
- To equip participants with practical skills for planning, implementing, and evaluating curriculum renewal initiatives.

**Venue: Recreation Room, VKIDS**

**INTRODUCTION:** Academia is a thriving and constantly challenging world. Human resource management is a vital aspect of academic management. This year we have chosen the aforementioned topic because team building and conflict management are vital in ensuring workplace harmony. It can help improve communication, collaboration, and productivity, and can lead to better teamwork and performance. Conflict management can also help create a positive work environment and boost morale. With this workshop we hope to enable and empower the participants to handle challenges at the workplace and create winning teams

**OBJECTIVES:**

1. To enable and empower the participants to handle challenges at the workplace and create winning teams.
2. Understand Emotional Intelligence, Types of Conflict, conflict management strategies with role play and group activities.

**Title: "MOVING BEYOND CHALLENGES IN EXECUTION OF ELECTIVES"**

**Date: 08/05/2024**

**Venue: Medical Education Unit Hall**

**INTRODUCTION:** The MBBS program envisions the student as a clinician, scientist, scholar and a researcher. Providing avenues in the competency based undergraduate MBBS program for the student to explore and experience various streams of the profession is important so that his interests bloom in a particular field.

Medical curricula stands on the strong core foundation of Basic Sciences and Clinical Subjects . Electives emerge as an important add on to this core curriculum as they provide students with the opportunity to tailor their studies by choosing and organising the syllabus that best meets their interests. Electives are learning experiences that will provide the learner with an opportunity to gain immersive experience of a career stream, discipline or research project. The revised Regulations on Graduate Medical Education, part II 2019 (GMER 2019) have created such opportunity in the MBBS program providing students options to do electives in basic sciences, join in ongoing clinical programs and in research settings.

**OBJECTIVE:**

The participants should be able:

- To develop, execute, monitor, and evaluate Elective Modules for the Medical Students.

**Title: "Orientation Program for Newly Recruited Faculty"**

Date: 27/06/24

Venue: Dr V D Patil Hall, KLE Centenary Convention Centre, BELAGAVI

**INTRODUCTION:** KAHER has always been in the forefront of medical education. The faculty in Health Professions Institutions, do not have a formal training in Teaching as they directly join teaching Profession after Post Graduation. Hence there is a need for the Orientation Program on basic Teaching Learning technologies including Curriculum development and Assessment methods and also to sensitize the health professionals on issues related to KAHERs functioning, organization & work culture and to promote good quality publications in the field of educational research.

**OBJECTIVES:** At the end of the Session/Program one shall be able to understand:

1. The roles and responsibilities of a teacher at medical college
2. Importance of clinical teaching and research
3. The various domains and educational objectives
4. The different innovative teaching learning methods
5. The different principles of assessment.

**TITLE: "MANUSCRIPT WRITING AND PUBLICATION IN HIGH IMPACT JOURNALS"**

**Date: 07/08/2024**

**Venue: Medical Education Unit Hall**

**INTRODUCTION:** Manuscript preparation is the backbone of research. There are numerous steps and procedures in manuscript preparation and its publication. Nevertheless, before we start creating the manuscript for our paper we need to think what message we want to communicate outside and why we need to publish our work. Publishing original research in a peer-reviewed and indexed journal is an important milestone for a scientist or a clinician. It is an important parameter to assess academic achievements.

**OBJECTIVE:**

**The participants should be able to:**

- Select an appropriate journal for their research work.
- Understand in detail the procedures associated with publishing in high impact Journals.

**INTRODUCTION:** A mentorship program in health education pairs experienced professionals with newcomers to foster growth and development in the field. This initiative provides guidance, support, and practical insights to mentees, enhancing their knowledge and skills while navigating their careers. Through one-on-one interactions, mentorship programs offer valuable networking opportunities, professional advice, and personalized feedback. Participants gain access to a wealth of experience and resources, helping them to address challenges, set goals, and achieve success in health education. Ultimately, the program aims to build a stronger, more knowledgeable workforce, contributing to improved health outcomes and innovative solutions in the field.

**OBJECTIVES:**

**To Build e-profile for the mentorship program**

### **Title: "DESIGN THINKING: A VITAL TOOL FOR INNOVATION"**

**Date: 20/9/2024 & 21/9/2024**

**Venue: Sharada Sabhangana Auditorium,**

**INTRODUCTION:** In today's fast-evolving world, innovation isn't just an advantage - it's a necessity. But innovation doesn't happen by accident. It requires a structured, creative approach to solving complex problems, and that's where design thinking comes in. Design thinking is a human-centered methodology that empowers individuals and teams to rethink challenges, identify opportunities, and generate solutions that are both innovative and impactful. It brings together creativity, logic, empathy, and experimentation to craft solutions that are not just functional but deeply connected to human needs.

#### **OBJECTIVES:**

At the end of the program, one shall be able to understand how to:

- ❖ Unleash their creative potential.
- ❖ Develop a deeper understanding of the user experience.
- ❖ Learn how to apply these tools to foster breakthrough innovations.

#### **RESOURCE PERSONS:**

**Title: "LEADERSHIP SKILLS IN HEALTH PROFESSIONAL EDUCATION"**

**Date: 23/9/2024**

**Venue: Conference Hall, DOME, JNMC.**

**INTRODUCTION:** Leadership abilities have become essential for medical practitioners to successfully navigate dynamic situations, drive radical change, and improve healthcare outcomes. Physicians frequently find themselves in leadership positions early in their careers unlike many other professions, and those who are not well-trained in leadership skills may struggle with the role, which can impact patient safety and create unhealthy working environments. Leadership is a virtue of knowing yourself, having a vision that is well communicated, building trust among colleagues, and taking effective action to realize your own leadership potential.

**OBJECTIVES:**

1. Leadership styles and its relevance to health professional educators
2. Concepts related to the change and its management in professional life.
3. To identify specific tools to sustain, institutionalize or expand Leadership skills.
4. 3 Importance of Effective Communication and manage difficult communication as a leader in Health Professional Education.
5. The concepts of Academic Leadership and Transformative Leadership.
6. Reflection and appreciative inquiry in developing leadership skills

**INTRODUCTION:** Self Directed Learning is one of the important adult learning principle. In the student centric CBME curriculum, SDL constitutes an important modality of Teaching Learning. Health professional educators should be aware about the responsibilities of students as well as teachers in conducting SDL. With the revision of CBME MBBS curriculum in 2023 and 2024, the importance of understanding the concepts in its implementation are far more relevant.

**OBJECTIVES:**

**Objectives of the workshop -SDL**

**a. Concept**

- Why Self-Directed Learning
- What is Self-Directed Learning
- What competencies are required for Self-Directed Learning
- Designing a Learning Plan
- From content transmitter to facilitator

**b. Conduct**

- Implementing SDL – the process (preparation, planning, conducting, assessing, evaluating)

**c. Curricular placement**

**Objectives of the workshop – Alignment Integration**
